GMO & BIOENGINEERING letter

We hereby declare that GALACTIC is manufacturing natural products by bacterial fermentation at its plant located in Escanaffles (Belgium). The products are sold under the brand names GALACID for Lactic Acid, GALACIN for nisin and natamycin, GALAFLOW for Sodium & Potassium Lactate, GALAFLOW BUFFERED, GALAXIUM for Calcium Lactate, GALIMAX for blends of organic acids, PRESERV & GALIMAX FLAVOR, GALASTER for Ethyl & Butyl Lactate, GALANIUM for other salts of lactic acid & GALAFEED.

Our bacterial strains are natural, isolated in nature, non-pathogen and not genetically manipulated. The bacterium is not mutant and not manipulated either actively (electroporation) or through any other technique (irradiation, controlled mutagenesis).

The raw materials used by GALACTIC are not derived from genetically modified plants. Our material is not bioengineered, not genetically engineered and not genetically modified through the use of modern biotechnology. We conduct stringent supplier verifications and traceability checks to ensure that our raw materials maintain full compliance with bioengineering-free standards.

Our products do not contain, are not produced from, and are not derived from bioengineered organisms as defined by the U.S. National Bioengineered Food Disclosure Standard (NBFDS). We also certify that regulations (EC) 1829/2003, 1830/2003 and amending Directive 2001/18/EC are not applicable to our products.
